SR 17 Corridor Congestion Relief Project

Overview

The Santa Clara Valley Transportation Authority (VTA), in cooperation with the Town of Los Gatos, and the California Department of Transportation (Caltrans), proposes to construct improvement on State Route (SR) 17 and upgrade the SR 17/SR 9 interchange in the Town of Los Gatos.

Objectives

The purpose of this project is to:

- Relieve congestion and improve traffic operations on the freeways and local roadways;
- Reduce cut thru traffic in the Town of Los Gatos;
- Improve bicycle and pedestrian facility and connectivity; and
- Support multi-modal congestion relief solutions.

Project Features

The proposed improvements may include, but are not limited to, the following:

- Modify the SR 17/SR 9 interchange's on- and off-ramps
- Widen SR 17 mainline and shoulder to eliminate lane-drop and bottlenecks from Lark Avenue to SR 17/SR 9 interchange
- Implement advance transportation technology
- Install traffic signals control system, traveler information system, and ramp meters

Capital Cost/Project Funding

The project cost is estimated to be between \$40 million and \$50 million, contingent on the final determination of improvements. The project is to be funded by a combination of VTA 2016 Measure B and local funds.

Project Schedule (pending funding)

Alternatives Analysis and Preliminary Engineering	2020
Environmental Approval:	2021-2022
Design Completion*:	2022-2023
Project Construction:	2024 - 2026

* Full funding for these phases of the project has not yet been finalized.
